PROFILE

Results-driven MERN Stack Developer with 3+ years of experience crafting robust, scalable web applications. Expert in React, Node.js, Express, and MongoDB, with specialized knowledge in web scraping, secure authentication, payment integration, and performance optimization. Dedicated to delivering exceptional user experiences and replicating sophisticated web platforms using cutting-edge technologies.

WORK EXPERIENCE

Founder & Developer - Copywrite 2024 - PRESENT

- Architected and developed a comprehensive SaaS platform that converts handwriting to well formatted documents. Saving hours manual typing
- Engineers the project from start to finish, and well optimized for search engines
- Highly responsive and intuitive user interface with multiple document manipulation features

Project NextWave 2023 - 2024 Developer

- Developed a full stack movie streaming and downloading platform using the MERN stack.
- Engineered an intuitive Google TV-inspired interface featuring genre-based navigation and interactive multiple functionality.
- Implemented real-time search capabilities leveraging MongoDB Atlas Search.

School Management System 2024 - PRESENT Developer

- Engineered a comprehensive React, Node.js, and Supabase-powered educational platform.
- Designed systems for managing student records, grades, results and attendance using a scalable database architecture.
- Implemented sophisticated role-based access control (RBAC) for teachers, students, and administrators.

CERTIFICATIONS

- 🎓 MongoDB Atlas Search Mastery - Coursera
